

Occupational Health & Safety (OH&S) Policy Statement

KLOSE Group was first founded in 1935 and has ever since focused on impeccable quality and safety. Our Services include Industrial Relocations of plants and machinery as well as high-tech services such as M&E Installation, Hook-Up and Field Service Outsourcing.

Occupational Health and Safety are systematically organized at KLOSE. Thus, it is essential that everyone at #teamKLOSE is alert about their safety and wellbeing at any time. Working at project sites, by their very nature, are hazardous and can be dynamic with plenty of changes occurring very quickly.

#teamKLOSE commits to:

- Fulfil all **legal and internal requirements** related to OH&S;
- **Provide and maintain safe and healthy working environments** for employees;
- Ensure OH&S objectives are set, monitored and reviewed at regular intervals;
- Risk-based thinking in place for the identification, classification, prioritization and control of hazards and risks;
- Implement a Plan-Do-Check-Act (PDCA) systematic approach to ensure continual improvement of OH&S performance;
- **Consulting and collaborating with workers** and other stakeholders on OH&S matters;
- Operating in accordance with **ISO 9001:2015 Quality Management Systems** and **ISO 45001:2018 Occupational Health & Safety Management Systems**;
- Ensure adequate training and instructions are given to all personnel and suppliers to enable them to perform their various tasks in a safe and efficient manner;
- Ensure that all tools, vehicles, processes and equipment are well maintained with due consideration for the health and safety of the users.

Every member of #teamKLOSE including the directors, management and workers are responsible to implement the OH&S policy and are therefore being encouraged to engage continuously.

Maximilian Klose
Managing Director SEA
